

The Minnesota State Law Library has a new logo. For twenty years our logo was a ladder with the caption underneath, "First rung on the ladder of justice." We wanted a fresh look and ran a design contest through [Logosauce](#). We paid \$500 and ran a 60 day contest.

We specified to the designers that we wanted a logo that reflected we were a State Law Library. We didn't want the scales of justice, which are overused in all law related logos. In the two month contest, we received numerous entries. Our director sent out the entries weekly and staff selected favorites. After the contest closed, we voted on the top four selected.

The final selection is an open book with the outline of State of MN. Check it out on the left corner of our [website](#).
